

LARC INFORMATION

'LARC' is short for 'License Assignment Rights Certificate'.

A LARC gives you the right to assign a specific license to projects.

Two LARC are provided here: the Free Indie LARC and the Studio LARC.

The Starter Indie LARC and the Pro Indie LARC must be purchased separately.

See our [website](#) for links to platforms where these LARC are sold.

Do not include your LARC when you publish your projects: personal information can be embedded inside.

The only licensing documents you need to include with your published projects is the actual licenses.
